Extra PSPS Notifications

For public safety, we may need to turn off power during severe weather to help prevent wildfires. This is known as a PSPS.

PG&E provides extra notifications to Medical Baseline customers before and during a PSPS event.

We will call you or send a text message. **ANSWER THE PHONE AND SAY “HELLO” OR REPLY “1” TO OUR TEXTS** to let us know you have received our notifications. If you do not respond, we will attempt to notify you in person.
